

# SWR METER SEDERHANA

## BRUENE BRIDGE

PUTU DARMAYASA

Koneksi Pada STM 32

Koneksi OLED SSD1306

## SOFTWARE SECTION

Software System Workbench For STM32

ST-LINK untuk programming

Nama project i2cscan, masih belum sempat ganti 😊

```
227 // Get ADC value
228 HAL_ADC_Start(&hadc1);
229 HAL_ADC_PollForConversion(&hadc1, HAL_MAX_DELAY);
230 reverse = HAL_ADC_GetValue(&hadc1);
231 // Convert to string and print
232
233
234 float pwr_fwd, pwr_rev , pwr_tot;
235
236 // Catatan Nilai Koreksi 0.07 di sesuaikan utk perhitungan power, sesuai ferri
237
238 pwr_fwd = 0.07 * forward;
239 pwr_rev = 0.07 * reverse;
240 pwr_tot = pwr_fwd - pwr_rev;
241
242 sprintf(pwrval, "%2.1f", pwr_tot);
243
244
245 ssd1306_SetCursor(0, 35);
246 //sprintf(fval, "%hu\r\n", forward);
247 ssd1306_WriteString("PWR:",Font_11x18, White);
248 ssd1306_WriteString(pwrval,Font_16x26, White);
249 ssd1306_UpdateScreen();
250
251 //ssd1306_SetCursor(0, 50);
252 //sprintf(rval, "%hu\r\n", reverse);
253 //ssd1306_WriteString("Rev:",Font_7x10, White);
```

Problems Tasks Console Properties

- Sesuaikan nilai (0.07 ) untuk perhitungan daya
- Tersedia precompiled hex file pada debug folder

Selamat Mencoba, bisa dikembangkan untuk menambah fitur SWR Pada BITX,  
SWR Protection

Terima Kasih

REAL TEST
